Markup supports **bold**, *italic*, and **even** *mixed markup*.

And now also color.

Escape * with \setminus * and _ with \setminus _ in markup.

Also, you can do all that indentation stuff much easier with markup, e.g. simple indentation At vero eos et accusam

And end the indentation. Now a list:

- This is a list item
- Another list item
 - » A sub list item
- And yet another one

Even enumeration is supported:

- 1. This is a list item
- 2. Another list item
 - a) A sub list item
- 3. And yet another one

And you can customize it:

I -> This is a list item

II -> Another list item

a ~ A sub list item

III -> And yet another one
